THEY SHOW UP IN FAIR FORM. A Brawn Same After Eight Innings-The Crack Battery of the Gothamites Did Not Officiate-Gore in Very Lame-"Sliver" King Reports for Daty-Other News,

RICHMOND, March 22. - The New Yorks played their first game of the season to-day. There was a fair crowd scattered around the bleacheries and the work of Powers's men seemed to please them. There was also a large delegation on the outside of the narrow field. They were there for the purpose of getting on a familiar footing with the Jarge, white \$1.25 baseballs of which the team have a generous supply. Every time ball was knocked over the fence the outside contingent set up an exultant howl as they pounced upon it. For a few innings Powers smiled as though the affair was a huge joke When seven spheres had been gobbled up however, by the rapacious small boys, the manager's efforts to look gay and uncon-cerned were distinctly painful.

The idea of the game to-day was to start the regular team playing together, as they must begin to get used to each other before April 12. Therefore, with the exception of Rusic and Boyle, who of course will not be asked to do battery work until absolutely necessary, and Gore, who is very lame, the New Yorks got into their regular positions. Luck, who played centre for the New Yorks, and Cullen and Kain, two of the picked team, are members of the Old Dominion Ciub and fairly good men. Sullivan pitched eight innings for the regulars, but did not exert himcelf. Taylor pitched three innings and then gave place to Coughlin, Tiernan, O'Rourke, yle, and Sharrott were having great sport in lifting the ball over the fence until Powers requested them to hit a few daisy cutters for a

Interest in the game centered in the work of the new men, and it was very creditable. Boyle is an ideal bail player. Tail, muscular, and netive, he makes a inversible impression. He is a left-handed batter, and stands at the plate straight as an arrow. He plays first base like a vole ao, and tuns the bases like a race-horse. "I do not think floyte has a superior in the country," was the comment of Jim O Rourke on the lag catchier. "He is not only a first-class back-top, but a first lower, heavy hatsman, and swift base runner. That is a combination you seldon find in a catcher."

Fuller had few chances in the game, but what work he did showed him to be one of these little fadia rubber fellows who bump, roll, and tunible around, but always arrive right end up. He gets around the tases like a flash of electricity.

Denny hyons only landed once on the ball, and that time it shot down the left four lines so fast that no one could see it. Lyons handles himself well at third. For a heavy man he ploks up ground his with great celerity. The errors with which he was charged were due to his reluctance to throw hard to first.

Charley Bassett played second in a masterly manner, and as "Reidy" Mack has not shown his nose in Richmond it can be safely predicted that he will not find any opening on the team when he does come. Bassett is in good shape, and will no doubt play a magnifleent same.

Mike Tiernan hits the ball with a crashing force. In practice this moraing little Jack Sharrott, by way of showing that his arm was all right, stood in centre catching fly bails and lining the ball to the home plate.

The game was cut short during the first half of the ninth inning, owing to the chilly weather.

"Bilver" King arrived to-day. He will take part in to-morrow's game with the Old Dominions. The score of the game to-day was:

Ward Sends Carr Home.

JACKSONVILLE, March 22.—This morning Ward decided to send home Charley Carr, the Staten Island Cricket Club catcher, who was here with the Brooklyn team or trial. He left with Mr. and Mrs. Dave Orr on the Civil Stal. He let with Mr. and Mrs. Days or on the Clyne

The advantages of abort trip through New England before the beginning of the championship season have been presented to the men, and they accent to favor the idea. The Brooklyns' admirers here are decidedly pleased over the way the men batted in yesterday's trame against Jacksonville. They are showing themselves to be an all-round good team.

When Mr. Wobb was commissioned to design the yacht all that was told him was that Mr. Fulton wanted a small auxiliary, with compertable accommodations below, and a liberal allowance of sail with power to carry it. Steam was to be merely a means of making a harbor when becalmed. Mr. Fulton wanted a sailing craft but his experience on the St. Lawrence, where he has the reputation of being a daring

Gen. Bernard McQuade telegraphed to Chamnion Casey yesterday that it would be utterly impossible for

him to fulfil his engagement. While this was a great disappointment to a great many lovers of the game, their visit was amply repaid by a pleasing context be-

tween the champion and Major Carmody and Wil, liam Couriney and Thomas Quickstep Lynam. The latter is one of the rising players of the Brooklyn Handball Club, and will be heard from later on. A deal of interest was manifested in Couriney's performance. The

than he ever was in his life, yet the lack of prac-tice destroys his effectiveness to a marked extent. The same beautiful method and fine pair of hands are

there, however, and yesterlay he acquitted himself fairly well. Some of his pick-ups in the outer court were remarkable. His partner gave him excellent as-sistance, particularly in service, and the question was, "Where did he catch on?" The scores were:

More interest was manifested in the four-handed match played at McGurn's court, Chicago, on Sanday last than any context decided in that city for a long time. The principals were Hugh O'Rrien and Peter O'Brien against B. Cronin and D. Cushine. It was for \$500 a side, the best of seven games. Arthur Lumley, representing the newly organized Coney Island A. C., yesterday telegraphed to the Eden Theaire, New Orleans, where Billy Dacey has been meeting all comers for several weeks, stating that the Coney Island club would give a purse of \$4,000 for Dacey and Austin Gibbons.

Lumley has also offered a purse of \$5,000 for Corbett and Mitchell to box six rounds, in two hours, ten days, or when the men feel most inclined. Corbett said yesterday that he would rather not meet anybody until he meets Sullivan, but that if Mitchell insists—well, he would see.

To raw Korron or The Sux—Sir, Since writing my letter published in your usue of Feb 11, in which I stated that I was pushed by Mr. J. P. Reilly of the Prospect Harriers while competing in the games of the Williamsburgh A. C. and the Forty-seventh Regiment, I find that I was not fousled by Mr. Reilly, but by autother competitor, and I now ber leave to retract the charge I made against bim, and also to apologize to him for striking him while running, which I am sorry to say, I did in the heat of passion. Trusting that you will publish this and thus vindicate Mr. Reilly, and hoping that he will accept this spology, I am, very respectfully yours.

News from the Horse World.

The Oakland Stock Company of Saginaw has purchased the well-known trotting mare Alice Oates of E. Cornish, Auburn, Me. Alice Oates was bred by A. A. Garcelon of Auburn. Alice Oates took second money as a four-year-old in a field of cloven at the Maine State Fair, going a mile in 2:41. She was bred to Messenger Wikes, and while in foal made a record of 2:324.

The protest made by J. A. Batchelor against Logan, winner of the \$500 purse at Guttenburg, on Saturday on account of false pedigree, has been set aside. Logan's pedigree was printed on the programme as by Voltigeur, out of Pet. An investigation showed that Pert is the dam of Logaan, that the horse had been entered correctly in a previous race, and that a typographical error caused the trouble. a typographical error caused the trouble.

Within a few years the Louisville Jockey Club will have to purchase new grounds, as the lease on Churchill Downs expires in 1854. At a meeting of the stockholders yesterday two propositions were considered. One was for the purchase of the present grounds and the other the purchase from a syndicate of 100 acros four miles from the city. The matter was referred to a committee. Hiram Scoggan, J. P. Curd. George J. Long, and F. D. Hussey were elected new directors.

Fitzelmmone's Opinion of Sullivan.

rere around town yesterday and presented a very interesting group. To a Sus reporter Fitzsimmons ex-pressed the opinion that John L. Sullivan, fit and well, would beat Jim Corbett. "But," says Bob, "how are we to know that the bly fellow will get into shaps? It seems to me, from what I have heard of Sullivan.

we to know that the bog reliew will get into snaps; it seems to me, from what I have heard of Sullivan, that he will not do his work like a man who is going to meet a good and clever boker. It may be that Sullivan will underestimate Corbeit. If he does that, and will not train, he will be beaten, for Corbeit is a remarkably clever man, and can hit a lard blow. Sullivan has no chech with him at any stage of the game."

Carroll reit the same way as Fitzsimmons. Griffing was even more productived in the views in the Corbeit was even more productived in the views in the Corbeit was even more productived in the views in the Corbeit when they enter the ring, the short end would be my preference. Take it any way you want to, and John L. Sullivan is not three times as good a man as Corbeit. We all know that John L. is a wonder. He has done many men in four rounds; but you must remember that this man Corbeit is fast, shifty, and a puncher, and I like such odds as three to one." Griffin praised Corbeit for the stand he made in the Sowery theatre against Mitchell on Monday. "He did pretty nearly right," Johnsy opined. "Farroun braws don't help the boxing business a bit, when a man knew craftineed a boxing business a bit, of the profession. We can do all the fighting we want to do in the ring, and under rules. If all boxers would stek to that idea the business would stand in higher forther."

TROTTERS UNDER THE HAMMER. The Well-known Compaigner Graylight \$1161.2, Sold for \$1,500.

The attendance at the combination sale of trotting stock, conducted by Messrs. Peter C. Kellogg & Co. in the American Institute building yesterday, was much larger than on the opening day, the quality of the animals offered being much higher. The main consignment was from the stud of Mr. A. B. Darling, Darlington, N. J., comprising the get of Electioneer, Kentucky Prince, Starlight, Lavalard, Wellington, and Aberdeen. Nearly all the horses offered were in good condition, and they were a handsome up-headed lot. Fenella, an eight-year-old daughter of Electioneer, commanded the top price, Charles Robinson of this city paying \$2.800 for her. She is a handsome mare, and will be a producer, as her colt by Starlight is a trotter already. The five-year-old horse National, with a four-year-old record of 2:25 ... tional, with a four-year-old record of 2:25%, was a great bargain at \$1,725, and the fast golding Graylight, with a record of 2:16%, was certainly not dear at \$1,500. Such prominent breeders as J. W. Daly of Mount Riseo, John H. Shults, Parkville Farm, Henry N. Smith, Fashion Stud, and Robert Steel of Cedar Park added to their brood mare bands.

The sale will be continued to-dar, when Verona, 2:21%, and other speedy and well-bred ones will be disposed of. The following is a list of those bringing \$250 and over:

THE FENCING CHAMPIONSHIPS. Unlateresting to the Men, but the Girls

Scemed to Like the Swordsmanship, The final bouts of the fencing champion ships promoted by the Amateur Athletic Union and Amateur Fencers' Longue were held at the Berkeley Lyceum last night. A large percentage of the spectators were young women. who were deeply interested in the trials of swordsmanship. Fencing is not a pastime to enthuse over, and the men present became bored after the first few bouts.

The three championships-foil, duelling sword, and sabre-were decided on the Turners' system of scoring. At previous championships if a man was beaten in a preliminary bout he was out of the hunt. Thus, if the two bout he was out of the hunt. Thus, if the two
best fencers entered met at first, one was
bound to be pointed out, a manifestly unfair
method. The Turners' system provides that
each man shall meet the each other man, and
the championship decided on percentage, position, attack, and defence to count as well as
victories. It was found impossible to have
each man meet the other in the present fournament, as it would have necessitated over 500
bouts, and a compromise was entered into,
each man meeting ten contestants.

The preliminaries had been held last week,
and only the men scoring 50 per cont. of victories met last night to contest for the final
honors. The foils came first, eight bouts
being decided as foilows:

Allaire was deemed a sure winner of this class, but, as usual, the good thing went wrong, and the much-bowhiskered Turner had to play second fiddle.

The judges for the various classes were: Foils-Messrs. Hammond. Dougherty, and White. Duclling swords-Messrs. Myer, Higgins, and Eschoverria. Sabres-Mossrs. Lawson, Haubold, and Francke.

A New Home for the New York A. C. The New York Athletic Club's house, corner of Fifty-fifth street and Sixth avenue, was thronged last evening by members at the special meeting called by the Board of Governors, to consider the advisability of building a new club house. There were between six and seven housed and they all seemed to be enthusiastically in favor of the new house.

The question of site is still an open one, and it will probably be some time before the Board makes it sinal decision. The spheral opinion seeme to be that it will be in the neighborhood of the Park. ing by members at the special meeting called by the Five Knock Downs in a Round.

ANXIOUS FOR IVES TO PLAY HERE Negotiations to Have the Next Match to the Madison Square Oarden.

AVOID IMITATION

AB PACE TOBACCO COLRICHMOND, VA

POUCHES.

There is a possibility that Champion Frank Ives may reconsider his decision not to play George Slosson in this city for the emblem of the world's championship at billiards that he won from Jacob Schaefer last Saturday. Slosson has offered him \$250 expenses, and to this was unexpectedly added yesterday an offer from the directors of the Madison Square Garden that will be worth Ives's consideration to play the match at the Garden after the circus is over. An agent of Vice-President Wharton waited upon Mr. J. F. Froescher, the Treasurer of the Brunswick-Balko Company, with a propo-sition, the terms of which have not yet been revealed. It was reported last night, how-ever, that the terms were \$250 outright to Ives for expenses, and half of the gross gate receipts to the winner of the match. If Iver receipts to the winner of the match. If Ivea necepts this he would be \$500 in pocket, even if he lost the game. Mr. Froescher replied to the proposition that he hadn't authority to arrange the matter, as that was an affair of the principals, but it is understood that a telegram was sent to Chicago giving the terms of the offer.

gram was sent to Chiengo giving the terms of the offer.

Slosson said last night that he had received no reply from Ives to his offer of experies, and that the date of the match had not been flxed yet. He was surprised when a Sun reporter spoke to him of Vice-President Whatton's offer. He is willing to necept it, and hopes that Ives will be similarly acquiescent. Slosson laughed at the telegraphed report that Schaefer had given away many of his trophies and had declared that he wouldn't rlay any more billiards until after the World's Faur.

"That's the talk of a man who is feeling sore," Slosson added, "and it doesn't go, depend upon it. Seinefer has already said he would challenge the winner of the match between Ives and myself, and he will do it."

A despatch from Chicago says that Ives has received and accepted an offer from M. Bergere of the Folic Theatre, Paris, to play there at terms that heirecontly cabled to M. Bergere and Slosson.

Slosson began his practice last night for the M. Bergere sent similar offers to Schaefer and Slosson.

Slosson began his practice last night for the coming match, and played well. It is probable that he will make arrangements to practices with Maurice Daly regularly again, the experts alternating at each other's pariors in their games. Slosson is in good lealth, and is quite confident of defeating the "Young Napoleon." He said that if he loses, however, he will at once chaitenge again and keep on challenging to keep the emblem alive. He says that the emblem cannot be taken abroad even if Ives succeeds in winning it again. The conditions under which it was offered for competition preclude its removal from American soil, although the helder could fix the playing ground in the Sandwich Islands if he felt disposed.
